Growers of corn, grain sorghum, barley, and wheat n sign now for the 1963 diversion program. Also underv is registration for the 1963 agricultural conservation p

Council okays street project for Pine & 1st

Meridian city council members Monday night approved work to improve street conditions at Pine and West First Streets.

Council president and street commissioner John Navarro reported on discussions held with officials of the Nampa-Meridian Irrigation District—regarding improvement of the irrigation canal at that point.

He said that the improvement could be made by installing a cement head wall or by tiling work. Council members voted in favor of the head wall construction, as being the less expensive of the two.

In other action Monday night, council members discussed with M. E. Roundy a proposed new subdivision northwest of town. Action was tabled pending presentation of a detailed plat of the proposed subdivision.

Vernon Schoen, area civil defense director, appeared at the council meeting to offer his resignation from the post—stating that he felt the civil defense program here was at a stand-still. City officials asked that he retain the assignment, and said that Mr. Schoen was doing as well as possible in face of the community's lack of interest in civil defense. As reported elsewhere Mon-

As reported elsewhere, Monday night's council meeting included appointment of Gené Hiner' as the new chief of police, and approval of the estimated budget for 1963.

Chamber hears heart program

Meridian Chamber of Commerce members heard a talk and view a film on heart diseases at their Wednesday luncheon meeting at Pat's Cafe.

Representing the Idaho Heart Association as guest speakers were Dr. C. C. Johnson and Mrs. Dale Marti, both of Boise. Dr. gram. Sign-ups for the feed grain spring wheat diversion progr extends through March 22. Wa Adams, chairman of the County ASC committee, said 1963 program will be similar

that of last year. Eligible to take part in the version program are all ti who produced corn, grain, s hum, and barley in 1959 1960, and those who produ wheat in 1959, 1960, or 1961, participate in the program, ti must be a minimum acreage duction of 20 percent from farm's base acreage of the li crops. The acreage in the retion must be planted to a serving use.

A diversion payment will made for each acre diverted price support payment will made on the normal produc of the grain and wheat produ providing the farm's base a age is not exceeded.

Conservation program

Mr. Adams said that only p ects which will be started spring will be considered for proval for the conservation gram. Included are such pract as land leveling, reorganiza of irrigation systems, ditch ing, noxious weed control, other conservation projects.

The county chairman said persons applying for inclusion this program should have deite plans ready for each con vation project at the time application is filed.

New police chief GENE HINER was named city officials Monday night
